Steel Stubble and Sod Plow.

Fitted with the celebrated "Garden City Clipper" Bottom.

Made by David Bradley Mfg. Co., Bradley, Ill., U. S. A.

About the best thing you can get hold of for all classes of work. At home in the stubble or fallow, turns a good flat furrow in the sod. Just a nice medium between the more abrupt old ground plow and the long, slow turning breaker. Hardened moldboard, share and landside. If we knew anything better suited to general work in this locality, we'd be selling it. But we don't think there is anything better. You'll agree when you see this one. Come in and let us show you.

An Apt Definition.

Two little girls were playing with their dolls, when one of them gave her doll a severe shake and said sharply:

"Now, if you do not behave I will swat you, see if I don't!"

"What does 'swat' mean, Helen?" asked the other little girl.

"Why, don't you know that 'swat' is simply colored for spank?" was the reply.—Lippincott's Magazine.
